PROFILE

Frontend Engineer and UI/UX Designer based in Dire Dawa, Ethiopia. I craft responsive frontend solutions that combine high-fidelity visual design with fast, interactive user experiences. Currently pursuing a BSc in Software Engineering (3rd Year) and a BA in Management (2nd Year) at Dire Dawa University — graduating from both in 2028. Open to freelance projects, collaborations, and full-time opportunities.

EDUCATION

2024 — Present	BSc in Software Engineering — 3rd Year Dire Dawa University, Institute of Technology Algorithms, OOP, frontend performance optimization, responsive systems. Expected graduation: 2028.
2025 — Present	BA in Management — 2nd Year Dire Dawa University, College of Business & Economics Business strategy, project management, organizational psychology, leadership. Expected graduation: 2028.

EXPERIENCE

2023 — Present	Freelance Frontend Developer Independent Work — Remote Delivering fully custom, high-speed frontend interfaces. Built Siltawi Digital Marketing (React, Tailwind, bilingual EN/AM toggle) and WOW Burger (high-fidelity custom menu layout, micro-interactions, ordering UX). Focused on performance, responsiveness, and pixel-perfect design.
----------------	--
